RAMY DANIEL CAMPUSANO VOLQUEZ

Full-Stack Developer | Computer Science, Oakwood University

Huntsville, AL | ramydcampusanov@hotmail.com | portfolio-new-psi-liard-49.vercel.app | GitHub: Daniels-not

PROFESSIONAL SUMMARY

Full-stack developer and CS senior who ships production web and mobile apps end to end, from React/TypeScript front ends to Node.js, Firebase, Supabase, and PocketBase backends. Currently leads the dashboard team for a university-wide student platform and publishes open-source developer tools used by other engineers. Fluent in English and Spanish.

EXPERIENCE

Computer Science Tutor **Jan. 2026 - Present**

Oakwood University | Huntsville, AL

- Lead individualized tutoring sessions in front-end and back-end development, algorithms, and C++ for undergraduate CS students.
- Translate complex programming concepts into clear, step-by-step explanations tailored to each student's level.
- Coach students on debugging and problem-solving strategies they carry forward into coursework and independent projects.

Software Developer - Dashboard Lead **Oct. 2025 - Present**

OU Computer Science Club | Huntsville, AL

- Lead the dashboard team for Campus Connect, the club's flagship student-engagement platform, running weekly stand-ups for a team of developers.
- Own the OU Map View feature end to end, integrating Mapbox GL JS to deliver an interactive, real-time campus map.
- Direct the build-out of responsive web and mobile interfaces, turning feature plans into shipped, user-facing product.

Help Desk Support Specialist **Aug. 2024 - Jan. 2026**

Oakwood University | Huntsville, AL

- Managed first-line technical support across hardware, software, and account issues for students and staff university-wide.
- Administered user accounts and system access, keeping university systems running smoothly with minimal downtime.
- Logged and resolved support requests to closure, maintaining accurate service records for the department.

Full Stack Developer **Sep. 2022 - Dec. 2022**

Mercury Soluciones | Remote

- Built and maintained Windows services and WebForms applications using VB and ASP.NET.
- Developed integration interfaces for third-party systems and authored the supporting technical documentation.

Full Stack Engineer **Apr. 2022 - Dec. 2022**

LogicOne | Remote

- Designed and built responsive web applications using React, ASP.NET MVC, and Node.js.
- Implemented front-end and back-end features to deliver a seamless user experience and efficient data flow.
- Collaborated on application architecture, selecting frameworks for scalable, maintainable solutions.

SELECTED PROJECTS

Campus Companion - OU Computer Science Club **2026**

- Co-develop the CS Club's next flagship platform following Campus Connect, building new features on a multi-contributor team.
- Maintain a branch-per-developer Git workflow that keeps the main branch stable across the team.

usemoor - Open-Source React Hook Library **2026**

- Published an open-source npm package providing React hooks for offline-first, optimistic state management with background sync.
- Built and shipped the full marketing and documentation website for the package.

OakEats - Smart Cafeteria PWA **2026**

- Built a progressive web app (React, TypeScript, Vite, Supabase) featuring live crowd voting, calorie tracking with exportable charts, allergen detection, and a role-based staff portal, demoed to university leadership.

ResumeAI - AI Resume Builder 2026

- Built a free AI-powered resume builder (Next.js, TypeScript, Tailwind, Gemini 2.5 Flash) after struggling to find a good free tool himself.
- Designed a 9-step guided form with 5 templates and multi-page PDF export via jsPDF/html2canvas; deployed on Vercel.

Untangle - AI-Generated Visual Advice Tool 2026

- Reimagined a college-advice chatbot as a visual experience, having Claude choose the right format (timeline, decision tree, comparison, for/against scale) per question.
- Built an animated, explorable interface rendering these visuals live to make school, major, and career decisions easier to reason through.

Anchor - Campus Wellness PWA 2025

- Built a React, TypeScript, and Framer Motion app with mood logging, an animated wellness insights dashboard, and lightweight messaging.

EDUCATION

Bachelor of Science, Computer Science Jan. 2023 - Jul. 2027
Oakwood University, Huntsville, AL | GPA: 3.9/4.0
